COVID-19 RESPONSE PLAN

We are continually discussing how to protect the health and well-being of our employees, customers and communities.

The following measures (developed May 1, 2020) are recommendations to minimize the spread of COVID-19. Please note that these measures have not been researched or tested but are based upon CDC recommendations.

We encourage all to take the necessary steps to keep employees and others safe. We strongly recommend that you be familiar with your state and local requirements and follow those as well. This document is being provided for general information only, and there is no requirement to follow these recommendations.

**Offices/Warehouses**
- Clean and disinfect consistently and regularly throughout the day. This includes shared spaces, such as break rooms and bathrooms, and any often-touched surfaces and objects.
- Supply all employees and contractors with appropriate PPE to include masks, hand sanitizer and gloves.
- Practice and enforce social distancing.
- Close the premises to all visitors, vendors and contractors. Those who enter must be cleared by answering a health questionnaire, having their temperature checked, and signing an agreement to inform management of the offices/warehouses if they experience COVID-19 symptoms or test positive within 14 days of their visit.
- Provide hand sanitizer throughout the space.
- Practice and enforce social distancing.
- Close the premises to all visitors, vendors and contractors. Those who enter must be cleared by answering a health questionnaire, having their temperature checked, and signing an agreement to inform management of the offices/warehouses if they experience COVID-19 symptoms or test positive within 14 days of their visit.
- Practice and enforce social distancing.
- Wipe down all machinery/equipment with disinfectant wipes, to include forklifts, after each use.
- Use appropriate PPE with any activity that requires two or more people. Upon completion, have all employees and contractors resume social distancing.
- Maintain and enforce social distancing during lunch and any other breaks.
- Conduct weekly safety meetings and include COVID-19 reminders, new information and best CDC practices.
- Require the employee in question to stay home and self-quarantine for a period of 14 days. Do not permit him or her to visit physical locations or job sites until the 14 days have passed or until the employee is cleared to work by a doctor.
- Notify all who were in contact with the employee that they must self-quarantine as well.
- Notify all customers if the employee was on their job site and if they came in contact with others outside the company.
- Sanitize all tools and equipment, including company trucks used by the affected person. If the employee visited physical locations, close those locations until proper cleaning and sanitizing have been conducted.

**Company Trucks/Vehicles**
- Spray the interior of trucks and vehicles with disinfectant after every use.
- Provide disinfectant wipes, masks and gloves to each driver.
- Make portable hand-sanitizing stations available.
- No passengers are allowed.
- Provide hand sanitizer throughout the space.
- No passengers are allowed.
- Practice and enforce social distancing.
- Practice and enforce social distancing.
- Wipe down all machinery/equipment with disinfectant wipes, to include forklifts, after each use.
- Use appropriate PPE with any activity that requires two or more people. Upon completion, have all employees and contractors resume social distancing.
- Maintain and enforce social distancing during lunch and any other breaks.
- Conduct weekly safety meetings and include COVID-19 reminders, new information and best CDC practices.
- Require the employee in question to stay home and self-quarantine for a period of 14 days. Do not permit him or her to visit physical locations or job sites until the 14 days have passed or until the employee is cleared to work by a doctor.
- Notify all who were in contact with the employee that they must self-quarantine as well.
- Notify all customers if the employee was on their job site and if they came in contact with others outside the company.
- Sanitize all tools and equipment, including company trucks used by the affected person. If the employee visited physical locations, close those locations until proper cleaning and sanitizing have been conducted.

**Job Sites**
- Practice and enforce social distancing.
- Close the premises to all visitors, vendors and contractors. Those who enter must be cleared by answering a health questionnaire, having their temperature checked, and signing an agreement to inform management of the offices/warehouses if they experience COVID-19 symptoms or test positive within 14 days of their visit.
- Provide hand sanitizer throughout the space.
- Practice and enforce social distancing.
- Wipe down all machinery/equipment with disinfectant wipes, to include forklifts, after each use.
